Data Automation Forms

Last updated by | Paul Kelleher | 17 Jun 2020 at 07:31 GMT

Background

This processes uses Microsoft Flows to automate responseds from a webform into VSTS tasks

Caveats

You will need to be logged in with your office 365 Business account to submit any form

Process

- ☑ The form is completed while logged in as an AD User
- ☑ The form is submitted into Flows
- ☑ Flows creates a new work item under Data\Data Area in the pknw1\Data project
- ☑ An email will be sent to the Data Team to inform them of a new submission
